Department of Obstetrics, Gynecology
& Reproductive Sciences*

Kimberly Yonkers MD
*Associate Professor, Psychiatry and
Department of Obstetrics, Gynecology
& Reproductive Sciences*

LEARNING OBJECTIVES

After completing the program, participants will be better able to:

- Explore the rationale for fetal aneuploidy screening, prenatal diagnostic techniques including perinatal ultrasound, and management of fetal structural abnormalities
- Discuss the management of medical diseases in pregnancy, including infectious diseases, psychiatric diseases, endocrine disorders, and obstetrical emergencies
- Review the contemporary management of maternal complications of pregnancy, including gestational diabetes, preeclampsia, cervical insufficiency, and preterm labor
- Explore other complex and controversial issues related to pregnancy, including obesity, drug abuse, vaginal birth after cesarean, advanced maternal age, and post-term pregnancy

The Yale School of Medicine designates this educational activity for a maximum
of 19 AMA PRA Category 1 Credits™
